Donors with Diabetes

nPOD Acceptance Criteria

February 15, 2016

Here at nPOD we are very grateful for our OPO partners and the time, effort you put forth to help us on our quest to find a cure for type 1 diabetes.

Please call nPOD 1-866-731-6585 when you have donors that meet the following criteria:

- Type 1 diabetes: Donors any age, any disease duration.
- Transplant: Any donor with a history of type 1 diabetes who has received a pancreas or pancreas/kidney transplant.
- Autoantibody positive donors, with at least 1 or more autoantibodies, ≤ 30 years old (for those OPOs that screen with nPOD).
- Donors 0-15 years in age, all donors.
- Caucasian donors 15-40 years in age, with a BMI of <30 . Healthy with either one, or both, of the following HLA.
 1. DR3 or DR17 (could also be reported as DRB1*0301, DRB1*0302, or DRB1*03 on some HLA testing)
 2. DR4 and DQ8 (could also be reported as DQB1*0302 on some HLA testing)
- Donors with a diagnosis of cystic fibrosis, any age.
- Donors who are pregnant, any age.
