

## nPOD Acceptance Criteria

**October 2, 2017**

Here at nPOD we are very grateful for our OPO partners and the time, effort you put forth to help us on our quest to find a cure for type 1 diabetes.

Please call nPOD 1-866-731-6585 when you have donors that meet the following criteria:

- Type 1 diabetes: Donors 30 years or less in age with a type 1 disease duration of 7 years or less.
- Any Donor 30 years in age or less, with a BMI of less than 30 where the cause of death was related to Diabetic ketoacidosis (DKA).
- Transplant: Any donor with a history of type 1 diabetes who has received a pancreas, islet or pancreas/kidney transplant.
- Autoantibody positive donors, with at least 1 or more autoantibodies, (for those OPOs that screen with nPOD).
- Donors 2 to 10 years in age, all donors.
- Donors with a diagnosis of cystic fibrosis, any age.

### Inclusion/Exclusion Criteria for nPOD Donors

(Except Type 1, Autoantibody and Transplant donors, for these groups still call as we may accept)

- |                                      |          |
|--------------------------------------|----------|
| • Other Autoimmune Disease(s)        | Included |
| • Hemodilution                       | Included |
| • HBV Surface Antibody               | Included |
| • HIV Positive                       | Excluded |
| • HCV Positive                       | Excluded |
